

Louisiana's Largest **WATERWAY** and Shoreline Cleanup

VOLUNTEER THE MONTH OF SEPTEMBER

Keep Louisiana Beautiful needs your help to clean up our state's rivers, lakes, bayous, and shorelines. Our 14,400-mile waterway system is Louisiana's lifeblood and essential to the vitality of our environment, economy, health, and culture. We all need to pitch in to clean up marine litter and Love Our Waterways.

Let's Work Together for **LITTER-FREE WATERWAYS**

Clean up shorelines. 80% of marine litter starts on land. Never litter, and when you see, pick it up before it enters our waterways.

Clean up by boat. Litter pollutes our waters, and harms fish and wildlife. Individuals and groups in paddle and motorized boats are needed to clean up our waterways.

Promote Love Our Waterways. Share this initiative on social media.

Donate. Help further the impact of Love Our Waterways by donating.
